II. LIMITATIONS, EXCLUSIONS AND DETAILS OF LIMITED WARRANTY.

- A. SPW Products are manufactured to certain specifications and ratings, which may include air and water infiltration, structural performance, thermal performance and/or sound transmission. The performance of installed windows and doors as noted on the labels showing National Fenestration Rating Council (NFRC) and Window and Door Manufacturer's Association (WDMA) Hallmark ratings can and will change over time due to environmental conditions, installation technique, maintenance, normal wear and tear, and other factors beyond SPW's control. The initial ratings and specifications are furnished solely to assist the purchaser in comparing products at the time of purchase and are not intended to warrant or guarantee specific field performance at those ratings or specifications as installed or over the life of the Product. These ratings may also apply to single units only, not to mullied configurations.
- B. This Limited Warranty is limited solely to defects in workmanship and materials arising from the production and manufacture of Products by SPW. Whether or not any of the above warranties apply, in whole or in part, to a Product or are excluded shall be determined by SPW in its sole discretion. SPW will not be liable for, and some or none of the above warranties will apply to or cover problems, claims or liabilities, costs, expenses, damages or losses, or other damage or defects caused by, arising from, or related to, any of the following:

This does not refer to the relation of the door panel to the frame or jamb in which it is hung. (NOTE: door warpage may vary as door panels adjust to temperature and humidity in their installed positions.) Action on any claim for warpage may be deferred for up to twelve (12) months at SPW's option to permit conditioning of the door to humidity and temperature ranges at the jobsite;
 29. Door warpage on doors 8 feet and taller, if such doors do not have multipoint hardware;
 30. Doors with flat, low profile or ADA compliant sills will not be warranted against air and water infiltration;
 31. Normal wear and tear and/or natural weathering of any surfaces, including discoloration of interior or exterior finishes, including hardware finishes;

- C. Inert Gases. Products may contain inert gas, intended to improve the thermal performance of the Product.
1. The migration of an inert gas, such as argon, is a natural process that occurs over time and is not a defect. SPW provides no warranty with respect to the migration of an inert gas.
 2. Argon gas within an insulated glass Product will dissipate over time. The conditions of exposure and manner of use of the Product will affect the rate of dissipation. The best manufacturing techniques cannot guarantee that the initial fill rate of inert gas will be maintained during the Product's lifetime. SPW provides no warranty with respect to the dissipation, rate of dissipation or initial fill rate. If the Product is fitted with a capillary tube system, it must be treated as if it is entirely air filled. SPW provides no warranty with respect to the amount or percentage of argon remaining in the insulated glass unit or any thermal performance related to inert gas at any time after manufacture.
- D. Allocation of Risks of Product Performance. Because some water infiltration must be anticipated in all construction, it is imperative that the wall system be designed and constructed to properly manage moisture and that the Products be properly installed. SPW is not responsible for, and provides no warranty with respect to, any claims or damages caused by anticipated or unanticipated water infiltration; deficiencies in building design, construction and maintenance; failure to install SPW products in accordance with SPW Guides; or the use of SPW products in systems, such as barrier wall systems, unless management of moisture within the wall system is adequately incorporated within the design of the system, as determined by SPW in its sole discretion. The determination of the suitability of all building components, including the use of Products, as well as the design and installation of flashing and sealing systems, are the responsibility of the buyer, owner, architect, contractor, installer, or other construction professionals and are not the responsibility of SPW, and SPW disclaims all liability with respect thereto. All risks related to building design and construction, fitness or suitability of Products for a particular purpose, or the maintenance, installation, and use of Products shall be assumed by the buyer and/or owner in conjunction with the architect, contractor, installer, or other construction professionals, and such parties waive and release SPW from any claims or damages related to such risks.
- E. General Product Disclaimers.
1. The performance of the exterior aluminum coated finish, hardware and/or Components may vary based on installation in extreme environments, including but not limited to seacoast and other corrosive environments, as well as based on elevation, orientation, altitude and other atmospheric conditions. Normal, regular maintenance of the Product is required to maintain the appearance, to extend the finish life, and to keep the warranty intact.
 2. Fading or color changes may not be uniform if the surfaces are not equally exposed to the sun and elements and such variation in fading or color is not considered to be a defect, and SPW provides no warranty and hereby disclaims any and all liabilities with respect thereto.
 3. Screens are intended solely as protection from insects and are not designed for or intended to provide safety protection or to prevent falling through an open window, and SPW provides no warranty and hereby disclaims any and all liabilities with respect thereto.
 4. Window opening control devices ("WOCDs") are not a substitute for careful monitoring of children. WOCDs must be checked regularly, as necessary, to determine if they are operating properly. SPW provides no warranty and hereby disclaims any and all liabilities with respect thereto.

III. WARRANTY RESOLUTION: EXCLUSIVE REMEDY UNDER THIS LIMITED WARRANTY.

If SPW elects to provide a replacement Product or Component, SPW will pay for the freight to deliver the replacement Product or Component to the place where the defective Product or Component was first delivered from SPW's factory. Any freight or delivery charges beyond that destination will be the Product owner's responsibility. Provision of a replacement Product or Component does not extend the warranty time period for the Product or Component, and the warranty time period of the original Product or Component shall continue to apply.
